## OUR SERVICES

### VALUES:

- Customer service
- Safety
- Quality
- Environmental care
- Ethical dealings
- Achievement
- Respect

### PROCUREMENT CAPABILITIES

**ZINDABAD LTD** provide Procurement, Inspection and Expediting in Nigeria

Procurement: can be carried out within Nigeria utilizing client specifications and Quality requirements. This also includes the necessary Quality Assurance assessments prior to placement of purchase orders.

### Inspection Service:

on plant, equipment and materials include the following

- Review and evaluation on Material Test certificates and Material Tests
- Verification of welding procedure qualification and welder/wielding qualifications
- Witnessing Non-Destructive Examination (RT , UT , DP , MPI)
- Witness of pressure tests
- Performance and operation tests
- Inspection of general workmanship and dimensional conformity
- Inspection of surface preparation for paint or preservation applications
- Regular Status Reporting

### Expediting Service:

are performed to prevent delays in the delivery of Clients materials and equipment from first shipment to last. This service includes the following activities;

- Establishment expediting control levels and methods for each PO and each type of equipment and material
- Monitoring fabrication schedules for critical equipment with particular specification or long lead delivery based on Project requirement.
- Investigation of any delays in vendor activities prior to submission of remedial recommendations to limit delayed deliveries against project planned dates.
- Regular reporting of current status of procured items.
- Coordination of inspections schedules and issue of very information.

## PROJECT MANAGEMENT SERVICES

### THE STAFF AND SERVICES

**ZINDABAD LTD** provides experienced Engineers and inspection personnel at all levels to integrate with existing project teams, for long or short-term assignments. We can also supply complete of people supported by established routines and procedures for specific projects and activities.

All **ZINDABAD LTD** are related to planning, achieving, verifying and documenting all project phases. The fields of activity include: engineering, procurement, fabrication, construction, security constantly commissioning and operation of drilling and process related projects oshore and onshore.

We are in the process of extending our services to include "Risk and Reward" contracts for defined tasks and budgets. If you would like to discuss this further, please contact us.

#### Our services encompass the following key areas:

- Feasibility studies to meet drilling criteria
- Evaluation of Client requirements
- Cost analysis in order to determine the most effective route
- Up to date design to avoid downtime and maximize drilling time
- Ensure design to facilities that can be readily constructed without major problems on site
- Optimization of requirements for spares
- Environmental Engineering
- Safety Engineering
- Procurement Engineering
- Production ergonomically sound design for operations
- Production of equipment specifications to embrace relevant codes and standards taking into account cost-effectiveness but without compromising safety
- Ensure vendor documentation for all intended purposes.
- Quality Assurance and assessment of all aspects of design stages incorporate
- Maintain close liaison with operations to ensure initial design stages incorporate interoperability and maintainability when accommodating equipment and process systems within the space constraints.

### Construction

- Quality assurance and control in accordance with ISO 9000 series
- Construction planning facilities utilizing various software packages
- Construction and constructibility engineers
- Materials supervision and traceability systems
- Oshore and onshore construction supervision for all disciplines
- Mechanical Completion handover by area and system
- Inspection and Test Records for all disciplines

## Commissioning

- Experienced Commissioning teams that has allowed completion of contracts on time and within budget constraints
- Full commissioning planning within first 4 weeks to allow construction and testing plans to follow suit.
- Standardized commissioning checklists to give necessary confidence to both operations and certifying authorities with regard to quality and work scope
- Issue and updating of the Commissioning Manual and associated checklist
- Preparation of all necessary commissioning procedures
- Dividing and classifying the facilities into separate operational and non-operational systems for commissioning and to assist in planning and scheduling
- Review, compilation and recommendation of lists of commissioning spares and consumables
- Order, Label an store commissioning spares
- Inspection / witnessing of activities at vendors works which are of importance of later commissioning activities
- Punch listing of Engineering and Construction errors or shortages prior to start up of commissioning
- Execution of commissioning in accordance with approved procedures and planning requirements. Planning will also include system and integrated testing of Drilling Units
- Identify, co-ordinate and obtain all necessary authority approvals required to allow for handover of completed Mobile Oshore Drilling Units after all applicable sea trials.

## PIPELINE CONSTRUCTION AND REHABILITATION

Our broad range of engineering construction techniques offer safety in all projects by reason of our first class equipment, highly skilled professionals and the most careful methods of execution. The departmental services are classified below:

### Key Specialized Areas

Onshore and Offshore

Pipeline transmission systems construction

Oil/Gas/Crude/Water flow and pipeline construction

Products gathering and distribution system

Hook-up, fabrication and installation

## STRUCTURAL AND FACILITY UP-GRADE

**ZINDABAD LTD** has been part of the industrial development for over 2 years, making an innovative and effective contribution to the work of diverse sectors as leaders in technical support and project management of their facilities.

We are actively engaged in structural re-engineering and infrastructure upgrade with expertise and technical capabilities for contractual agreement, which offer clients the substantial benefits through closer control of their projects on land or at sea.

### Key Specialised areas:

- Structural Fabrication and construction
- Platform, Jetties, and Site Accommodation Facility

Facility Construction, Skid and process platform fabrication and construction

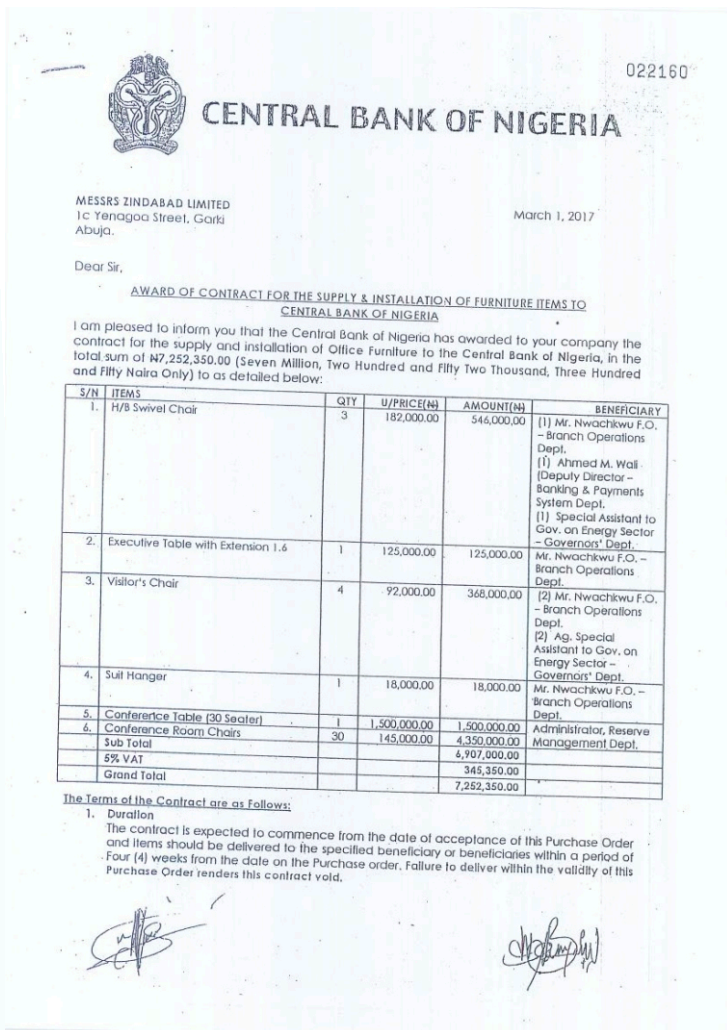

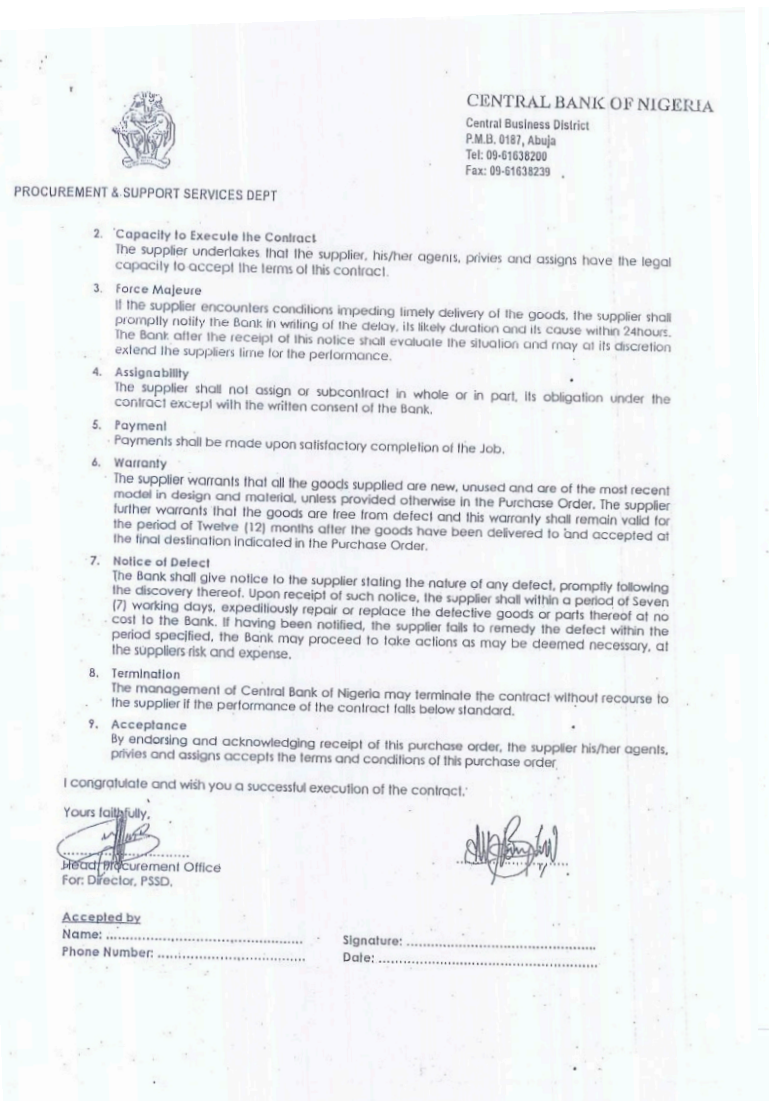

Blocks of Classroom in Daura Katsina

CIS Flagship house of Nigerian Immigration Service, Katsina State

## CIVIL AND BUILDING ENGINEERS

We are actively re-positioning ourselves in the civil engineering sector and infrastructure development with the expertise and technical capabilities in the building industry.

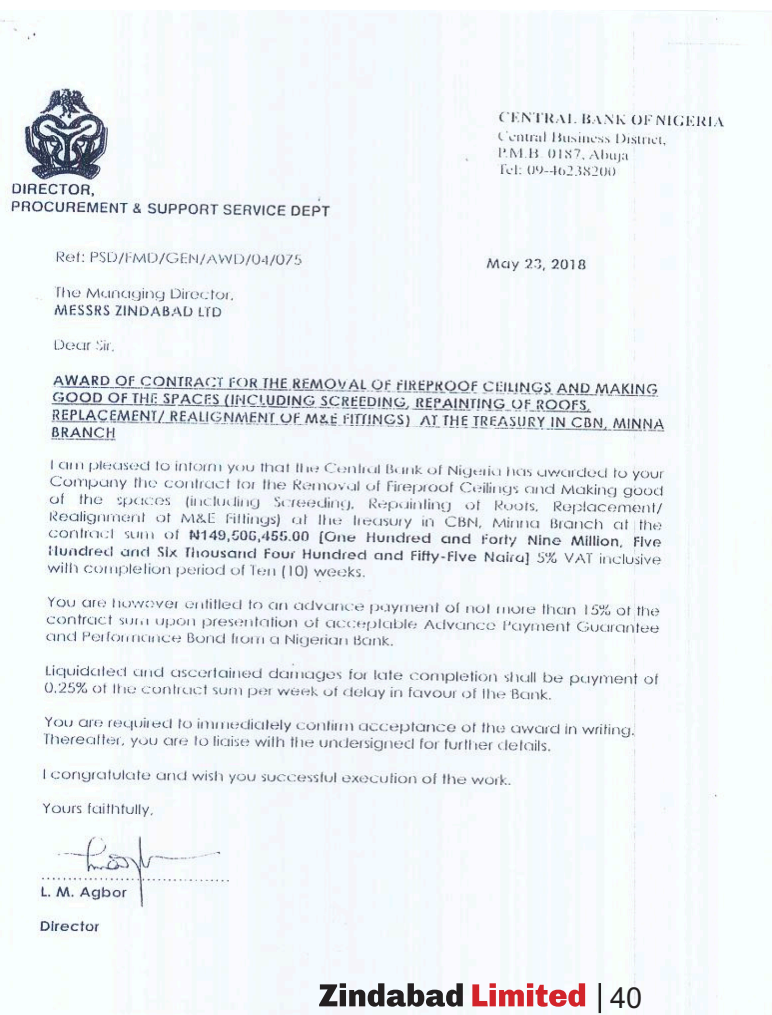

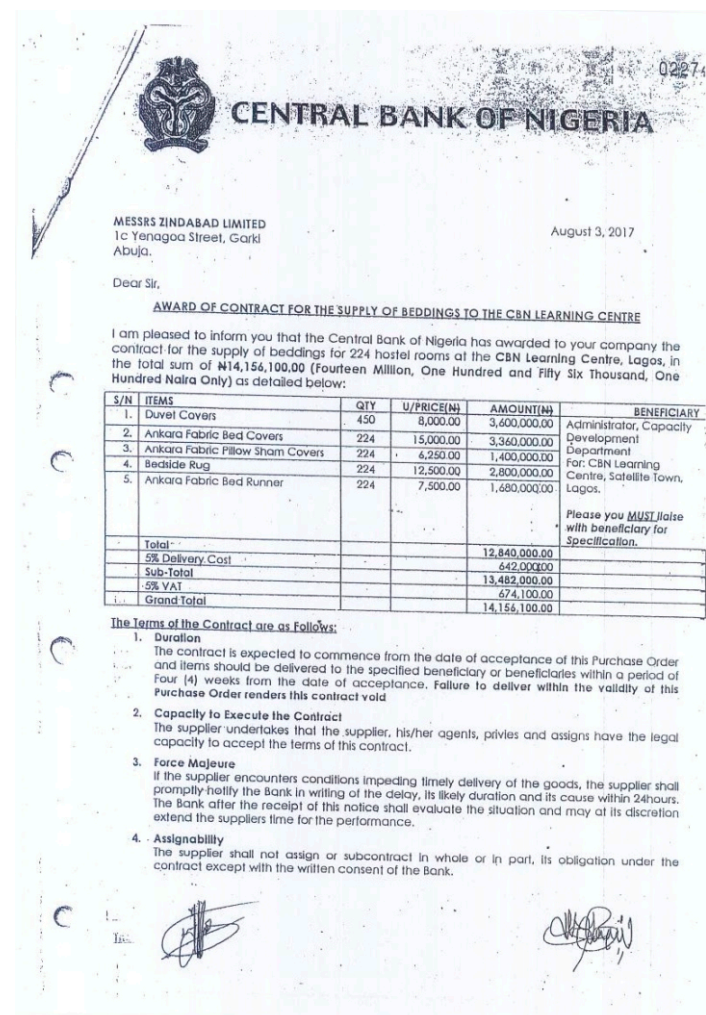

By forecasting the effects on operational costs and efficiency, we can accurately determine the optimum design solution.

From the earliest conceptual stage of a project, our decisions are taken with the fundamental impacts on the cost and duration of the project as paramount.

Building Services continues to be a strongly prospecting sector of **ZINDABAD**

## Areas of specialization

- Government and private housing schemes
- Commercial and residential building (land & Swamp)
- Institutional infrastructure
- Environment development and reclamation

## ROAD ENGINEERS

**AT ZINDABAD LTD** we have continued to demonstrate that we can go beyond the conventional into levels of exceptional performance across the breadth of civil development and Road construction.

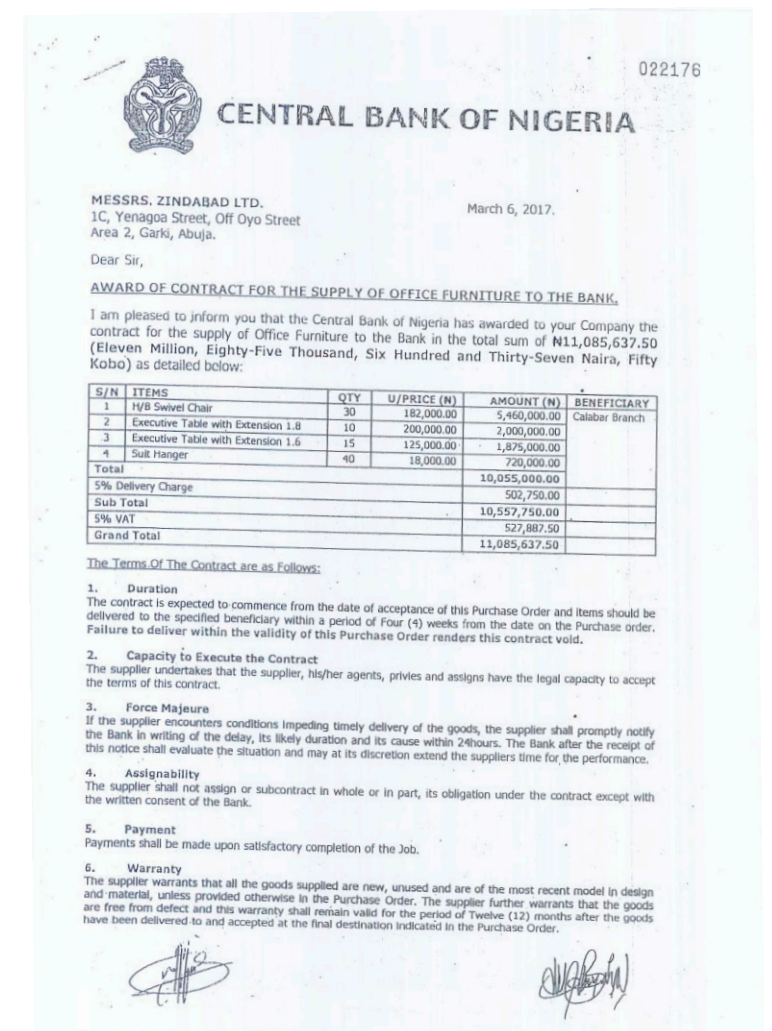

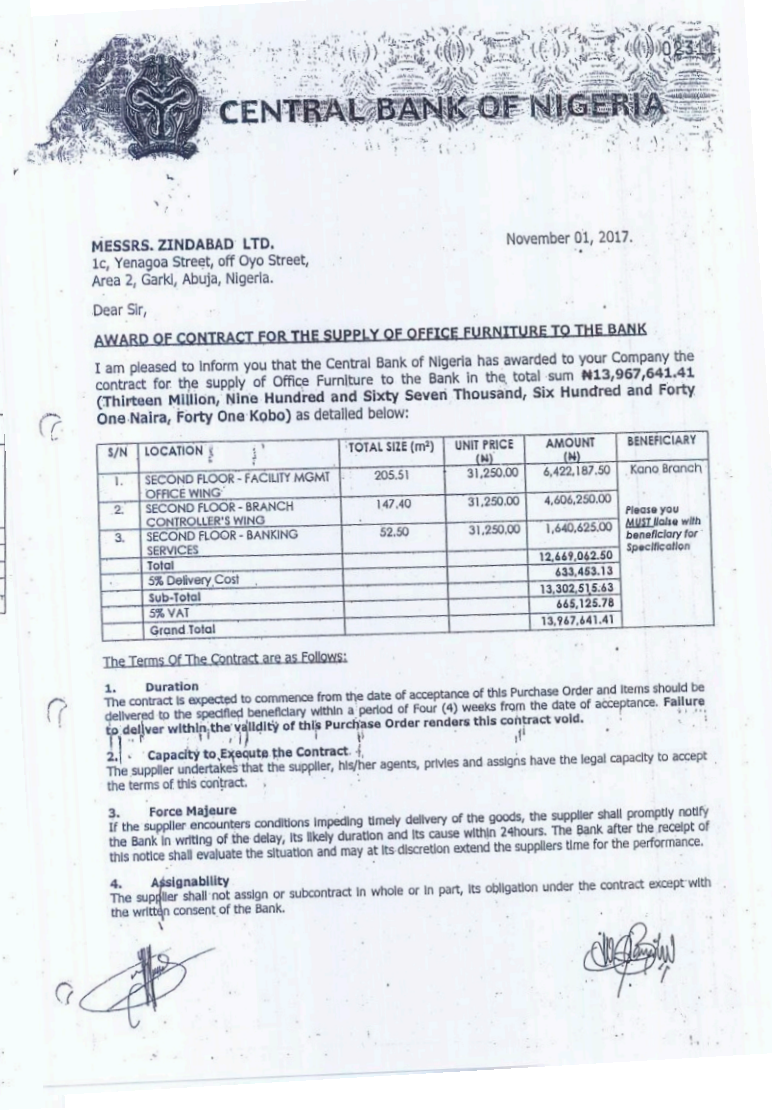

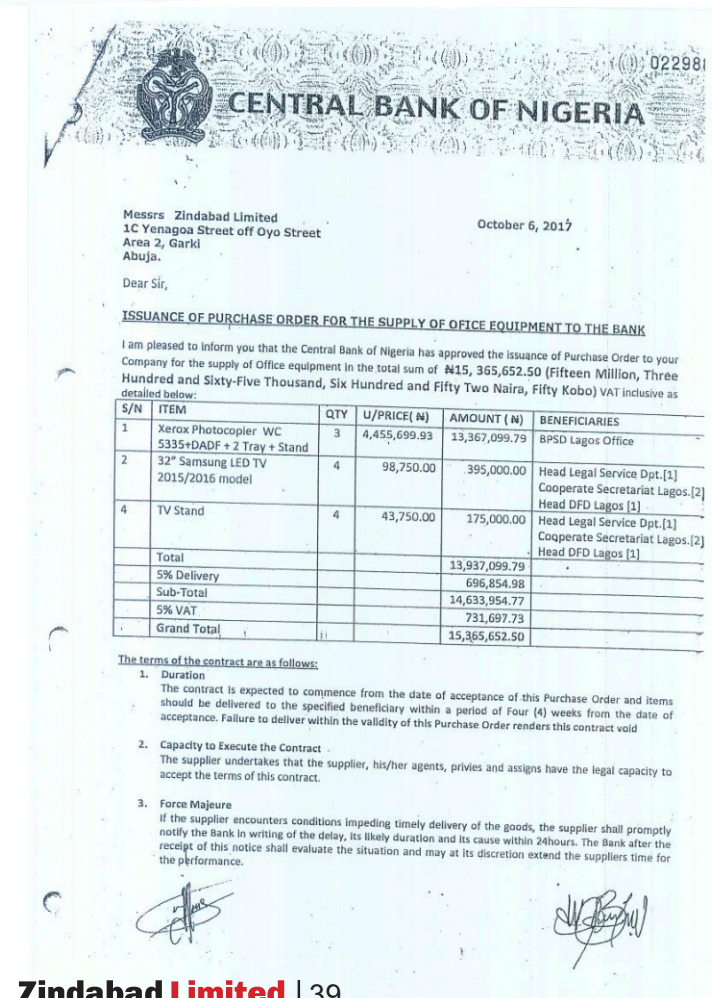

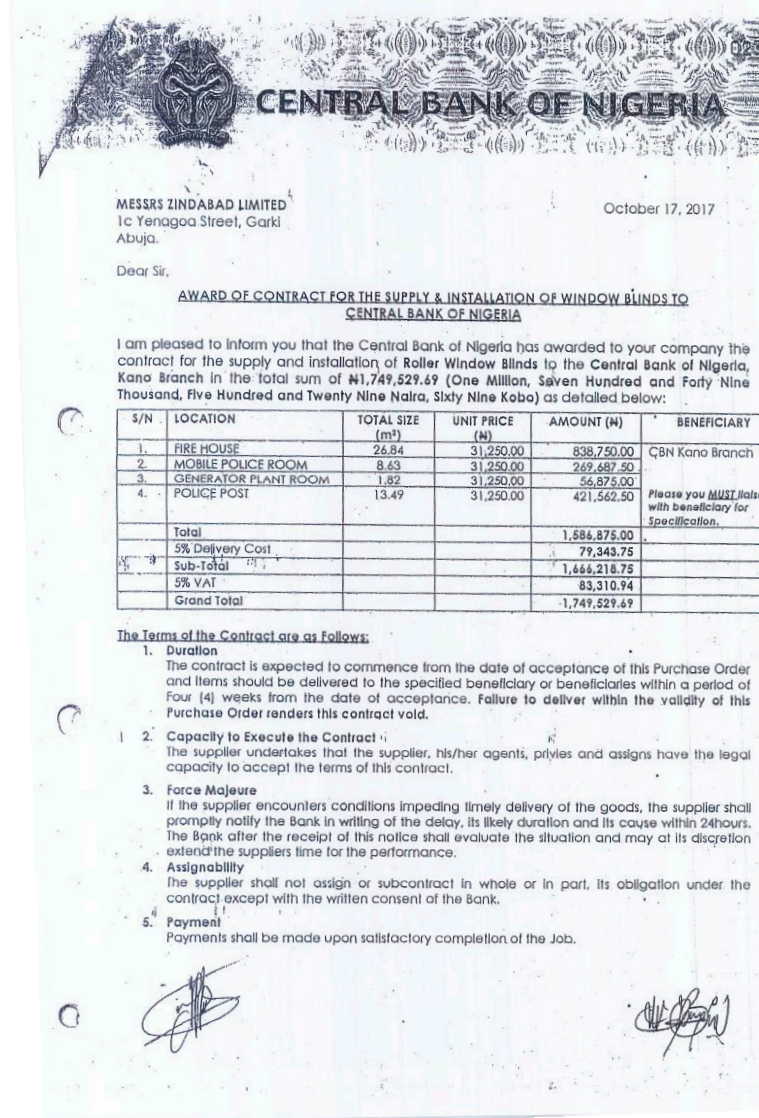

We have developed a service which can meet the real needs of our clients and involve the optimization of current skills and rural technology.

### Areas of specialization

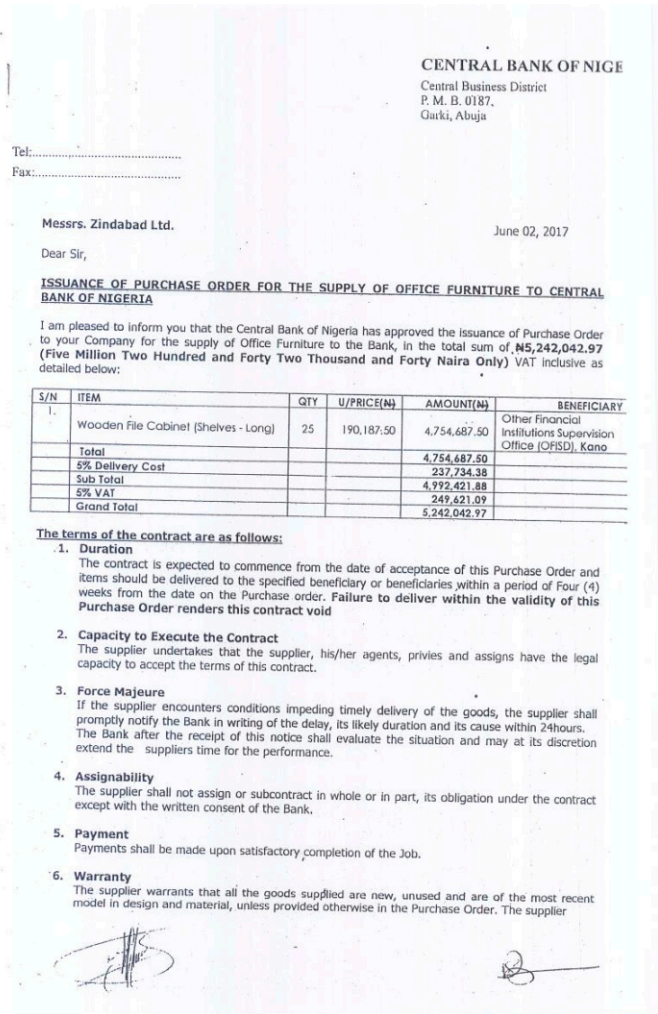

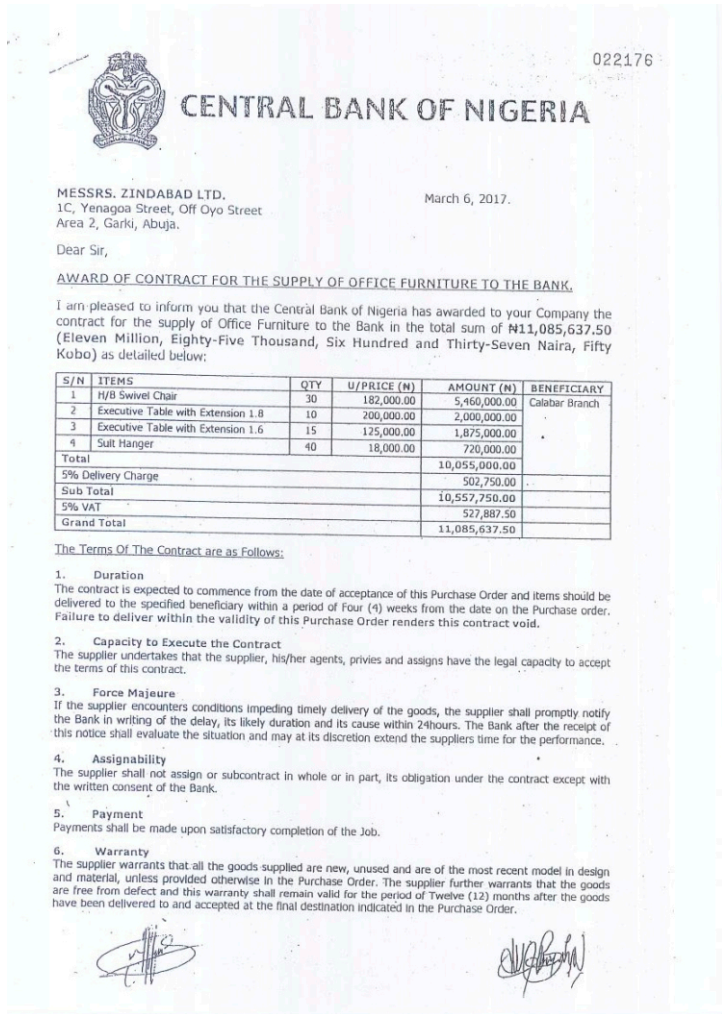

- Highway, urban and rural road construction
- Environment development (land and swamp)
- Access roads and rural development.

### SOME OF THE RURAL AND URBAN ROAD WE CONSTRUCTED

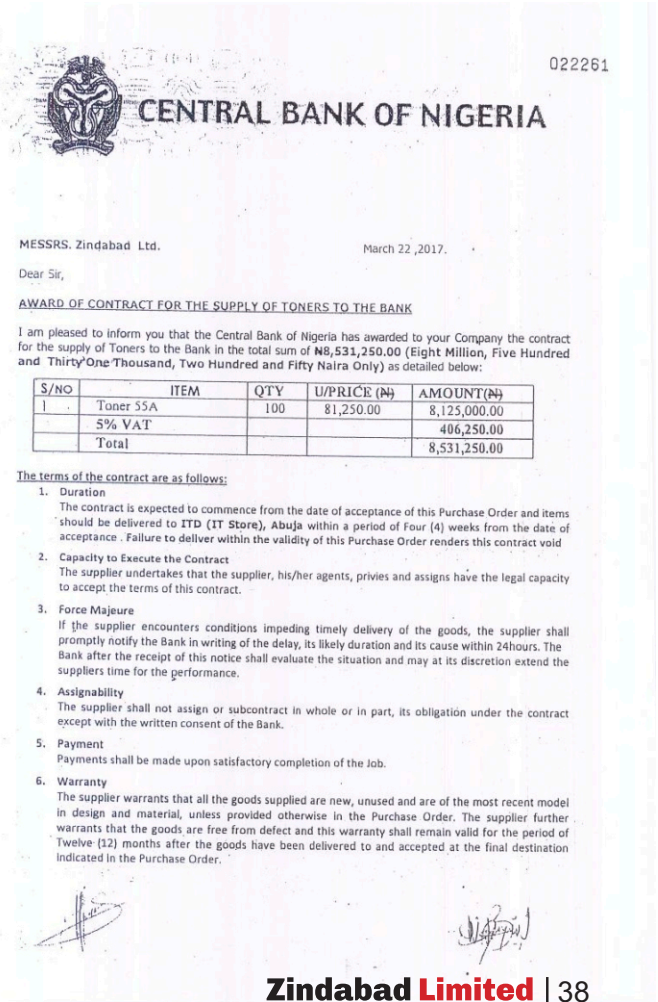

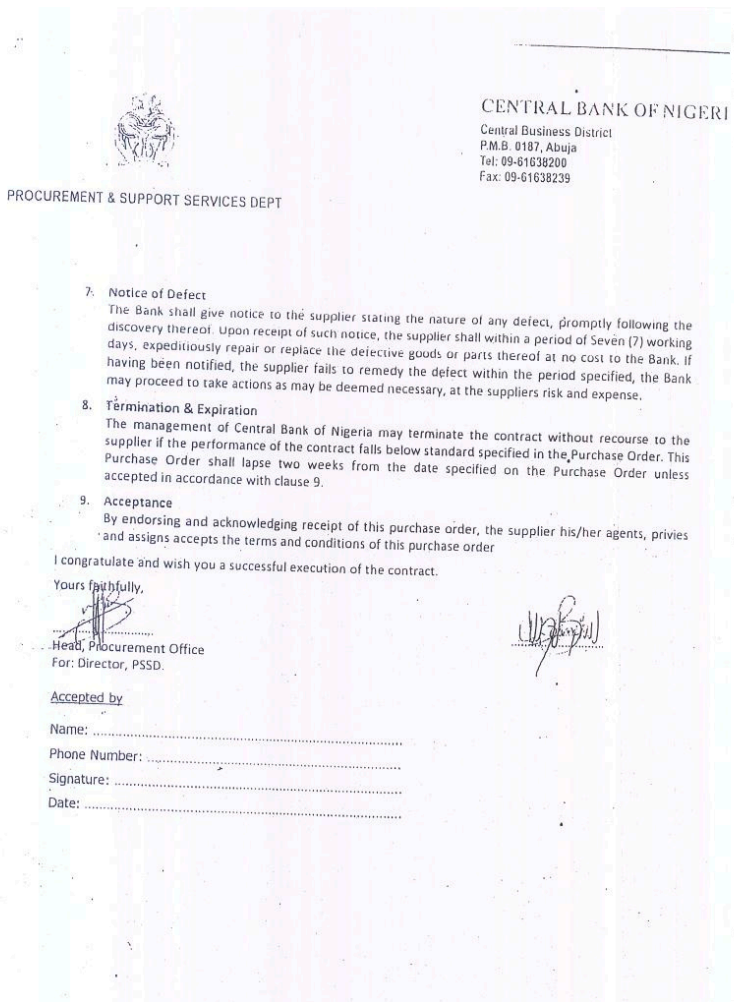

## WATER RESOURCES ENGINEERING SERVICES

In pursuance of our cooperate objective, aimed at delivering high quality services to our clients, we have developed a system for meeting the real needs of our clients.

### We have specialization in the following area:

- Hydro-Geological Survey
- Surface Geophysical Surveys
- Bore hole Drilling
- Bore hole Reactivation and Maintenance Services
- Water Treatment Plant and Chemicals
- Water Tank Construction
- Pump Installation
- Water Distribution from main

### OUR BORE HOLE DRILLING RIG AND WATER TANK

## DREDGING AND RECLAMATION ENGINEERS

### Dredging and Reclamation Engineers

Our broad range of marine engineering oer safety in all phases of our projects by reason of our first class equipment, highly skilled professionals and the most careful methods of execution.

Our technology is an intricate weave of experience and expertise with shared global technologies that oers the best solutions.

**ZINDABAD LTD** has competence to undertake a broad range of marine services as classified below:

#### Dredging

#### Land Reclamation

#### Shoreline Protection

MESSRS. Zindabad Ltd.  
March 22, 2017.

Dear Sir,

**AWARD OF CONTRACT FOR THE SUPPLY OF TONERS TO THE BANK**

I am pleased to inform you that the Central Bank of Nigeria has awarded to your Company the contract for the supply of Toner to the Bank in the total sum of ₦8,531,250.00 (Eight Million, Five Hundred and Thirty One Thousand, Two Hundred and Fifty Naira Only) as detailed below:

S/NO	ITEM	QTY	U/PRICE (₦)	AMOUNT(₦)
1	Toner 55A	100	81,250.00	8,125,000.00
	5% VAT			406,250.00
	Total			8,531,250.00

**The terms of the contract are as follows:**

- Duration**  
The contract is expected to commence from the date of acceptance of this Purchase Order and items should be delivered to ITD (IT Store), Abuja within a period of Four (4) weeks from the date of acceptance. Failure to deliver within the validity of this Purchase Order renders this contract void.
- Capacity to Execute the Contract**  
The supplier undertakes that the supplier, his/her agents, privies and assigns have the legal capacity to accept the terms of this contract.
- Force Majeure**  
If the supplier encounters conditions impeding timely delivery of the goods, the supplier shall promptly notify the Bank in writing of the delay, its likely duration and its cause within 24 hours. The Bank after the receipt of this notice shall evaluate the situation and may at its discretion extend the suppliers time for the performance.
- Assignability**  
The supplier shall not assign or subcontract in whole or in part, its obligation under the contract except with the written consent of the Bank.
- Payment**  
Payments shall be made upon satisfactory completion of the Job.
- Warranty**  
The supplier warrants that all the goods supplied are new, unused and are of the most recent model in design and material, unless provided otherwise in the Purchase Order. The supplier further warrants that the goods are free from defect and this warranty shall remain valid for the period of Twelve (12) months after the goods have been delivered to and accepted at the final destination indicated in the Purchase Order.

## PROJECT MANAGEMENT SERVICES

To meet the special needs of existing and prospecting clients, we focus our skills, experience and delivery on integrated, best value solutions to various types of project management Services with unrivaled breadth of expertise to match the scope of our skills and the extent of our services in any project whether on land or at sea.

Technical and administrative excellence is only the starting point for what we provide, combined with proven ability to manage costs effectively; it is the key to maintaining our sharp competitive edge.

With the capacity to tackle every type of commission, from small scale to major projects, we have the unique capacity to deliver professional and technical services to clients, built on the broad skill base of our sta.

### Areas of Specialization:

- Civil and Construction
- Water Schemes/Earth Dam/Irrigation.
- Electrical & instrumentation

**CITY TECH ENERGY's** Electrical and related Engineering services are highlighted below:

### ELECTRICAL SERVICES (SWAMP, MARSHLAND AND RIVER CROSSING)

- Street Lighting
- Access Control
- Transformer Installation and Servicing
- Flood Lighting
- Overhead Lines
- Feeder Pillar installation
- A.M.F. Panel Installation
- L.V. Switch Boards Installation
- Generator Hook-ups
- Uninterrupted Power Supply installation,
- Repair & Maintenance
- Rural Electrification

### Resource persons include:

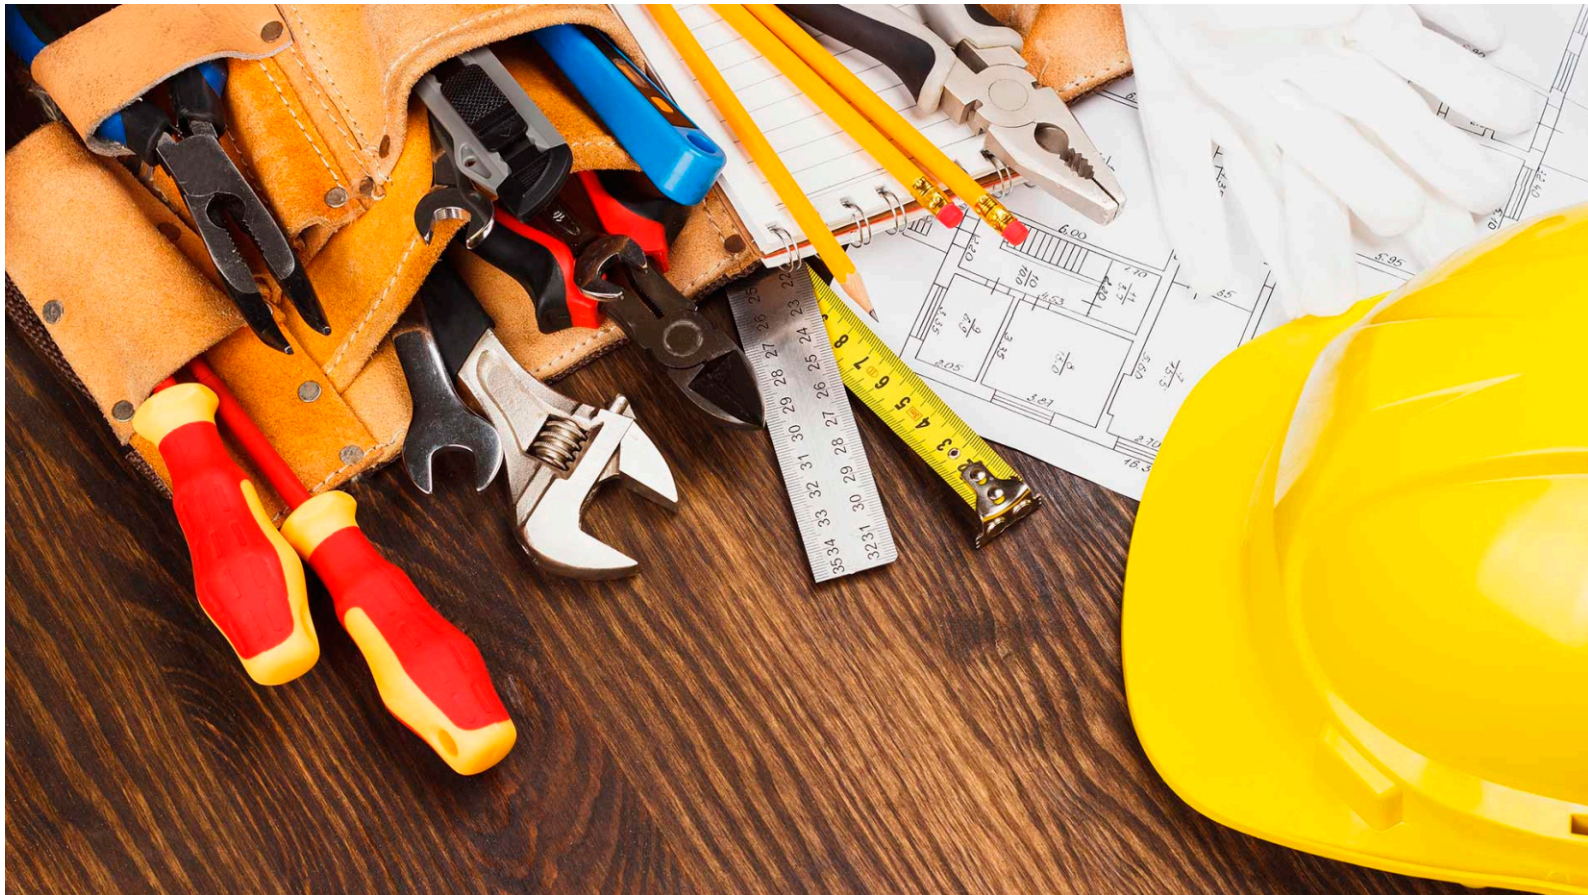

- Electrical Engineers with 10-20 years experience
- Electrical / Electronics Engineers 8 – 10 years experience
- Technicians with 12-20 years experience

INSTRUMENTATION (SWAMP, MARSHLAND AND RIVER CROSSING)

Our Instrumentation operation is SOA and ISO 9002 compliant, with an Instrument Calibration Mobile Workshop in tow. Operation includes:

- Instrument Installation and Upgrade at Upstream, Downstream and Flow Station location
- Remote Stimulation of complex process plants
- Digital Dead Weight Testing
- Digital Hydraulic Pumping
- Druck Instrument Calibration
- Temperature Sensing
- Digital Test Gauging
- Air Compression
- Transmission signaling
- Multi-function Digital Calibration
- Digital Fluke Measurement
- Digital Oscilloscope
